Very nice game. I have always been a fan of the wolfenstein franchise, so when the new game launched this year I knew I HAD to get it. The throwback to the earlier graphics definitely resonates with me as a fan, and I appreciate their counter-culture alt-left message in a time as politically charged as this. The soundtrack - I don't care WHAT haters say about this choice of music, it completely fits the game so well, and it brings mood to every cutscene in this game (or should I say, this EXPERIENCE). I

can't believe I got such a good game for such a good deal.. uzis in ww2 cant see a foot in front of you have to sprint to even walk kids a christmas. Very nice game. Not only "No". but "Oh Hell NO!" Stay away from this toxic minimal effort game by the developer at ALL costs! https://www.youtube.com/watch?v=dN4fhwchGUM This is kinda what you'd expect from your typical Game Guru game. Drag and drop default assets within Game Guru engine and hope to make a quick buck kinda game by the developer. Except. this one is EVEN WORSE than most Game Guru garbage I've seen. Less effort and less care by the developer is blatantly obvious, yet he asks THREE TIMES as much as your average Game Guru trash game (Average is about \$1.99 USD and for this he asks \$5.99 USD) Maps look like they were made in no more than five minutes each with the same three or four assets used over and over and over and over, Absolutely ZERO thought put into any of the levels and each looks as if a drunken monkey created them as a joke. Add to this that the game crashed three times on me with a black screen. (And before the developer can blame my computer or Steam. my Steam big picture and overlay was turned OFF before the game and my computer can handle ARK and 1,000 other games with no problem) At least Ivan Vs Nazi Zombies (which has been removed from Steam might I add) was only \$1.99 and I could play the full game, not possible with this trash as it kept loading my saved game after getting killed to a black screen with game sounds, Ugh. This game just isn't worth the hassle or time, much less even a nickel of your money. My Score: VALUE: 0 out of 40 - A game that a developer spends no more than 20 minutes making and charges \$6 for? Cough. Ridiculous. Way to disrespect any fans you might have made in your previous games, mr greedy dev. .ZERO! FUN: 0 out of 30 - If you think feeling nausea at the blurry stretched terrain and awful controls "fun", more power to you! .ZERO! CONTROLS & BUGS: 0 out of 20 - With random invisible walls everywhere and constant black screen bugs, 0 is more than this game deserves here. GRAPHICS & SOUND: 0 out of 10 - Theres no points awarded for using stretched defaul textures and assets we've seen 100 times. -----So what would look to add up to a 0 score because afterall, 0 + 0 + 0 + 0 equals 0 right? Usually! But not in this mess of a rip off scam game! I confidently take away 20 points for wasting my time installing, uninstalling, and needing to request a refund, and needing to seek professional help for ever thinking this was game worth a purchase! Subtract 20 points! My Score: The lowest score I've ever given to any game in just about 300 Steam reviews now. A NEGATIVE 20 % Great Job Mr Self proclaimed "Developer"! Way to prove you are an indie developer only interested in ripping off your customers with low effort garbage.. Very nice game
