
TANE DLC - ZecRail 2017 Christmas Train Patch

Download ->>>>>> <http://bit.ly/2OPhOFU>

About This Content

This year, ZecRail brings you the new type 4 D1 class locomotive decorated for Christmas 2017, with a string of goods wagons and passenger carriages to bring Christmas cheer to the people in your virtual world!

The locomotive, a 4-6-0 tender engine, is painted in a custom blue and gold livery with Christmas decorations, and a traditional chalked style Merry Christmas message on the smokebox door; and offers clean, polished, and lightly weathered options for your Christmas Train!

In the included session, you will be bringing Christmas Cheer to the families of Lilydale and Healesville as you take them on an evening journey through the Yarra Valley from Lilydale to Healesville.

Features include:

- Custom painted locomotive (VR D1 Class Type 4) and rolling stock (I wagon, U van in red, M cattle truck, G carriage truck, AA, AB, and BB class American Saloon carriages, ZP guards van)
- Christmas Train session from Lilydale to Healesville
- Pre-made consist for the 2017 Christmas Train

-
- VR D1 class (type 4) also features
 - Texture swapping, giving clean, polished, and lightly weathered options
 - Scripted, animated, reverser and valve gear in exterior and interior views
 - Animated flags
 - Christmas lights at night (white lights and flashing red and green lights) plus tree lights on day and night
 - LOD on all meshes
 - Scripted exhaust smoke effects, based off regulator and cut-off
 - Scripted and animated air compressor, with sound and smoke effects
 - Scripted cylinder drain effects toggled by ALT + D, and based off the steam chest pressure
 - Other Scripted steam and sound effects including injectors, and blower
 - Animated screwlink couplers, brake hoses/taps, and safety chains using ACS
 - Scripted Marker Lamps and Tail discs, with glow lamps (thanks to Bloodnok) - compatible with the VR Set Train Lamps driver command
 - Animated cab doors, cab windows, cab roof vent, weather tarp, smokebox door, and tender tank filler lid
 - Cab doors, windows and roof vent can be controlled from inside the cab as well as via the properties window.
 - Weather tarp matches in cab view and exterior view
 - Full custom interior view, with operational controls
 - Physique based coal load animation in tender, giving realistic deformation as coal is used
 - Automatic Numbering, with automatic tender numbering, with normals mapped number plates and matching builders plates
 - Snow mesh, using the snow altitude function in Trainz
